

## HEARING PROTECTORS CLEANING KIT

Specially developed kit to clean and take care of your NoNoise Hearing Protectors. Regular use will extend the life of your hearing protectors and ensure crystal clear performance.

### HOW TO USE

Spray a small quantity of solution onto the hearing protector with the spray pump. Wipe it clean and dry with a cloth (see instructions on the bottle). Use cleaning cloths for stubborn dirt. Use the blue air blower to dry the hearing protector's inner tube.

When using the Air Blower, blow **only** into the wider opening of the Hearing Protector, otherwise you may dislodge the filter.

## EFFERVESCENT CLEANING TABLETS

### INSTRUCTIONS

1. Take the basket from the cleaning container.
2. Put a cleaning tablet in the container.
3. Fill the container with water.
4. Put the hearing protectors in the basket and place it into the cleaning container.
5. Cleaning time: a minimum of 15 minutes to several hours (soak overnight if necessary).
6. Remove basket with hearing protectors from the container.
7. Rinse with water.
8. Thoroughly dry the hearing protectors.

### ADVICE

- Use a new tablet every time you clean.
- Clean hearing protectors at least once every other week.
- Our cleaning products are environmentally friendly and do not irritate the skin.
- Take care not to dislodge the filter from the casing of the Hearing Protector when using the Air Blower.
  - Not for internal use, keep away from children.
  - If swallowed: If conscious, rinse mouth with water and drink plenty of water.
- Do not induce vomiting. Seek medical advice immediately.
